INTERRUPTION, CURTAILMENT AND CAPACITY ALLOCATION OF SERVICE

Service under this Rate may be interrupted, curtailed, or capacity allocated to protect service to higher priority Customers in accordance with the Company's Rule No. 21.

RATE CLASS DETERMINATION

On an annual basis, the Company shall review and evaluate the customer's usage and ensure that such usage supports its assigned Access Fee. In the evaluation process, the Company shall consider each customer's past three (3) years of gas usage, each year measured starting cycle 1 of the July cycle billing month and ending either cycle 21 of the June cycle billing month (for sales customers) or cycle 22 of the June cycle billing month (for transportation customers). If a customer's usage during two (2) out of the three (3) years reviewed does not satisfy the usage requirements of the customer's currently assigned Access Fee, the Company will assign the customer to the appropriate Access Fee that matches the customer's usage. The Company will also take into consideration any circumstances it is made aware of that may impact the customer's future gas usage when determining whether to change a customer's Access Fee assignment.

OTHER CONDITIONS

1. Service under this Rate is subject to applicable laws and orders, and to the Company's Rules and Regulations on file with the New Mexico Public Regulation Commission.
2. Certain Customers belonging in the water and sewage pumping classification have executed special contracts. These Customers are to be designated special contract Customers for the purposes of this Rate and all rules of service.
3. Any minimum bill provisions of contracts under which special contract Customers are served shall continue in effect. In computing any amount due thereunder, the amount of the Access Fee shall not be included.
